

Arithmetic Practice Test I (in class)

Name
Date
Arithmetic

Instructions

- I) As always, write a title, name, date, and course
- II) Number each problem, circle the number, rewrite the problem, and show all work.
- III) Put a rectangle around your answers.

① What is the name of the place where the underlined number is? What is the place value?

5, 8 2 1

② Write the following expression in number form.

Five million three hundred fifty-two thousand six hundred eight.

③ Write the following number in word form.

7,491

④ If you add numbers, the result is called the sum of the numbers. If you subtract two numbers, the result is called the difference of the two numbers. If you multiply two numbers, the result is called the product of the two numbers. If you divide two numbers, the result is called the quotient of the two numbers. The number you are dividing is called the dividend and the number you are dividing by is called the divisor.

Perform the following operations.

⑤ 36×52

⑦ $7,806 + 434$

⑧ $27,416 \div 92$

⑥ $3,326 - 2,102$

Perform the following operations.

⑤ 36×52

⑦ $7,806 + 434$

⑧ $27,416 \div 92$

⑥ $3,326 - 2,102$

⑨ $531 \div 1$

⑩ $0 \div 8$

⑪ $567 \div 0$

⑫ Fill in the bubble with $>$ or $<$. $65,789$ ☐ $80,001$

⑬ $9,000,000 \times 8$

⑭ Find the difference between $5,007$ and $3,419$.

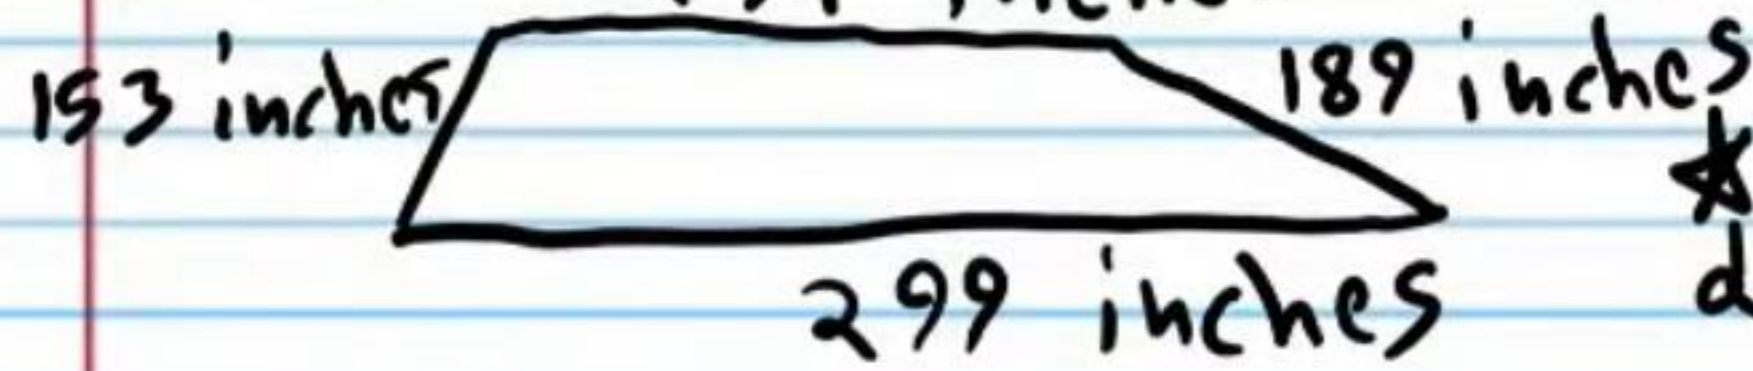

⑮ Find the sum of 897 and $673,489$.

⑯ Find the product of 348 and 976 .

⑰ Thomas had 56 coins in his pocket. He wanted to distribute them equally to himself and his six friends. How many coins did each person get?

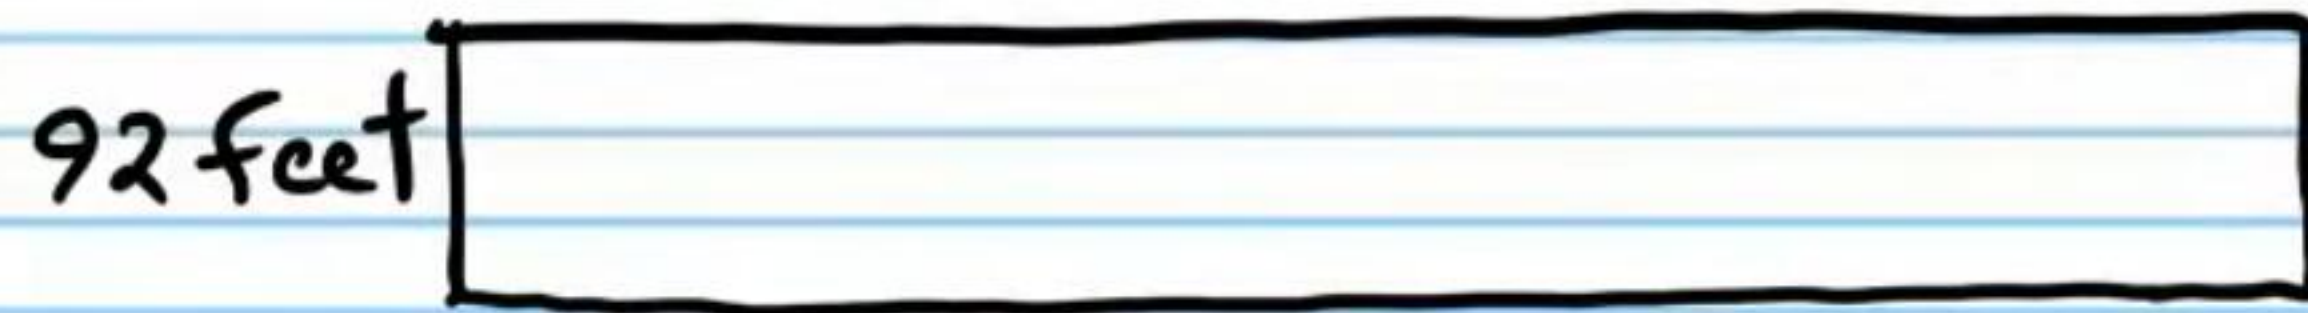

⑱ How many seconds will it take a meteorite to travel $84,030$ miles if it flies 5 miles per minute? There are 60 seconds in one minute.

①9 Find the perimeter of the following shape. 231 inches

* Picture not drawn to scale

②0 The area of a rectangle is the product of its length and width. Find the area of the following shape.

* Picture not drawn to scale.

②4 The distance between Billy's house and the grocery store is 834 feet. If Billy has already walked 98 feet, how much farther must he walk?

②5 The speed of light is approximately 670,000,000 miles per hour. How many miles will light travel in three days (one day is 24 hours)?

②① Rachel has \$341 in her bank account.
Lana has \$4,221 in her bank account. How
much more does Lana have than Rachel?

②② Each pizza box can fit one pizza.
One pizza contains eight slices of pizza.
If there are 27 pizza slices, how many
boxes will have a complete pizza? How many
slices will be leftover?

②③ Is the following statement true or false?
 $5 \times 3 = 3 \times 5$
